

IFE-FIT Flexible Installation Tool

IFE-FIT professional hose clamp installation tool is flexible so that it can get to hard to reach places. The reversible two ended socket (supplied with each tool) can service the two most commonly used hex head sizes for band clamps. Two versions are available one for American style clamps and another for European style clamps.

- For American style clamps IFE-AS, IFE-AS2 and IFE-LPC the reversible socket is 1/4" on one end and 5/16" on the other end
- For European style clamps IFE-MC, IFE-GS, IFE-SS the reversible socket is 6 mm on one end and 7 mm on the other end
- The ergonomic handle design allows clamps to be installed easily with minimal effort
- The flexible shaft is 7" long
